Acknowledgement of Disclosure and Assumption of Risk

Effective as of January 11, 2023

This Acknowledgement of Disclosure and Assumption of Risk (the “Agreement”) has been prepared to provide you with information regarding the risks and side effects of using medical marijuana. It is important that you read this information carefully and completely. Please discuss any questions you may have with your recommending physician. Once you have read and understand this Agreement, and have had any questions satisfactorily addressed, please sign and date this Acknowledgement of Disclosure and Assumption of Risk Agreement below.

Risks and Side Effects of Medical Marijuana Use

Possession or use of medical marijuana may be unlawful outside of the State of Ohio and is prohibited by federal law. Additionally, transporting medical marijuana across state lines may be unlawful and is prohibited by federal law. Medical marijuana purchased at our stores may have intoxicating effects, has not been analyzed or approved by the United States Food and Drug Administration (“FDA”), and is produced without FDA oversight for health, safety, or efficacy.

The efficacy/potency of medical marijuana may vary widely depending on the product being used, the delivery method, differences from batch to batch, and on your own physiology. We make no claims about the efficacy of any medical marijuana product. When products infused with medical marijuana or its active compounds are eaten or swallowed, the effects of this drug may be delayed by three (3) hours or more. The scientific basis for the medical use of medical marijuana is still being researched, reviewed, and understood. Information is limited regarding how medical marijuana may react with other medications.

There is limited information on the side effects of medical marijuana use, and there may be associated health risks. Side effects of medical marijuana may include, but are not limited to, feelings of euphoria, dry mouth, memory loss, impaired vision, anxiety/nervousness, irregular/increased heartbeat, low blood pressure, agitation, confusion, hunger/loss of appetite, dizziness/impairment of motor skills, numbness, cough/bronchitis/shortness of breath, dependency, sexual impotence, depression, laryngitis/bronchitis, general apathy, drowsiness/fatigue/abnormal sleep, poor physical condition, headache/nausea/vomiting, sedation/slower reaction time/inability to concentrate, paranoia/psychotic symptoms, suppression of the immune system, and allergic reactions. Symptoms of medical marijuana over-consumption include, but are not limited to, nausea, vomiting, and disturbances to heart rhythm. Medical marijuana use may result in Cannabinoid Hyperemesis Syndrome, which may require the cessation of medical marijuana use as treatment.

Some patients may become dependent on medical marijuana, meaning they experience withdrawal symptoms when they stop using medical marijuana, including, but not limited to, depression, sadness, irritability, restlessness, agitation, insomnia, sleep disturbance, unusual tiredness, trouble concentrating, pain, and loss of appetite. Patients may develop a tolerance to medical marijuana, meaning higher doses may be required over time to achieve the same relief. Medical marijuana may exacerbate or trigger schizophrenia or bipolar disorder in patients predisposed to such disorders.

Women should not consume medical marijuana while planning to become pregnant, during pregnancy, or while breastfeeding, except on the advice of their recommending physician, OBGYN, and, in the case of breastfeeding mothers, the infant’s pediatrician. Prenatal marijuana exposure is associated with lower birth weight, higher likelihood of neonatal intensive care, preterm birth, and neurocognitive vulnerabilities in children and adolescents, including, but not limited to, decreased executive function, behavioral problems, lower academic achievement, and depressive symptoms.

Keep medical marijuana products out of reach of children and pets. Using medical marijuana while under the influence of alcohol is not recommended. Medical marijuana may affect coordination, cognition, and judgement. Do not drive, operate machinery, or engage in potentially hazardous activities while under the influence of medical marijuana.

IN SIGNING BELOW, I CERTIFY THAT I HAVE READ THIS ACKNOWLEDGEMENT OF DISCLOSURE AND ASSUMPTION OF RISK AGREEMENT, AND I FULLY UNDERSTAND ANY POTENTIAL RISKS AND SIDE EFFECTS RELATED TO THE USE OF MEDICAL MARIJUANA. IN USING MEDICAL MARIJUANA FOR MEDICINAL USE, I FULLY ACCEPT RESPONSIBILITY AND ASSUME ANY RISKS AND SIDE EFFECTS ASSOCIATED WITH ITS USE. I FURTHER HOLD HARMLESS AND RELEASE CITIZEN REAL ESTATE, LLC, DOING BUSINESS AS THE CITIZEN BY KLUTCH, AND ATCPC OF OHIO, LLC, DOING BUSINESS AS KLUTCH CANNABIS, OF ANY LIABILITY RELATED TO ANY SUCH RISKS AND SIDE EFFECTS.
